INTERNSHIP| AFFIMINTUS.COM

10 December 2021 to , 5 June 2022

- Gained hands-on experience in Object-Oriented Programming (OOP) with Core Java.
- Implemented Exception Handling, Collections, Multithreading, and Arrays to optimize application performance.
- Worked with JDBC connectivity for database integration using SQL, Oracle, and MySQL.
- Developed server-side applications using Servlets and JSPs.
- Built scalable applications following the MVC Architecture for structured and efficient coding.

SKILLS

PROGRAMMING LANGUAGE
- JAVA

DEVELOPMENT
- HTML/CSS/JAVASCRIPT/REACT

DATABASE
- MYSQL

VERSION CONTROL
- GIT

Cloud & DevOps
- AWS (EC2, Hosting, Domain Management)

TOOLS & PLATFORMS
- VSCODE | ECLIPS | APIS | GENERATIVE AI | SEO

PROJECTS

SHREE RAM TOURS AND TRAVEL

Founder & Developer | [Dec. 2024 – Present]
- Designed and developed a rental car service website to provide seamless booking experiences.
- Implemented SEO strategies to increase organic traffic and improve Google rankings.
- Integrated pricing structures, vehicle details, and contact forms for user-friendly navigation.
- Optimized mobile responsiveness and performance to enhance customer engagement.

Technologies Used: HTML, CSS, JavaScript, SEO Optimization

KUBER GROUP

Role: Full-Stack Developer | [Feb. 2023 – Present]
- Designed and developed the entire website for Kuber Group, handling both frontend and backend.
- Implemented secure and scalable backend architecture using Java (JSP & Servlets).
- Deployed and managed the application on AWS EC2 for high availability.
- Configured domain settings and hosting through GoDaddy.
- Optimized website performance and ensured smooth user experience.

Technologies: Java, JSP, Servlets, MySQL, AWS EC2, GoDaddy (Domain Management)

SOFT SKILLS:

- Problem-Solving – Efficiently troubleshoot and resolve technical challenges.
- Project Management – Independently handled end-to-end project deployment.
- Leadership – Managed hosting, domain, and server-side development single-handedly.
- Time Management – Successfully balanced multiple responsibilities and deadlines.
- Adaptability – Learned and implemented new technologies like AWS EC2 & GoDaddy domain management.
- Attention to Detail – Ensured secure, optimized, and scalable backend architecture.
